

ESSKAY SILVER LABEL SPIRAL HONEY HAM

IMPORTANT NOTICE: DO NOT OVERCOOK
YOUR HAM HAS BEEN FULLY COOKED
REMOVE ALL PACKAGING FROM HAM.

Conventional Oven: Heat tightly covered with aluminum foil in 325°F oven for 10-12 minutes per pound.

Microwave: Microwave on high for 10 minutes (2-1/2 minutes for slices).

Cooking-n-Bag: If using Cook-n-Bag follow heating instructions on packet.

Carving Instructions:

To serve your ham, start cutting slices off the large (butt) end of the ham just as though it were not spiral sliced. After a few slices you'll run into the first of the spiral cuts.

Then make cuts along the natural lines on the ham's surface and along the bone to remove sections of slices. Cut first along (A) and down each side parallel to the bone as far as desired. The top section of slices may then be removed. Then cut along (B) to remove the lower right section. To remove the final section, cut around the bone along line (C).
